Career Objective

Analytical Engineering undergraduate (2027 Batch) with a **multi-disciplinary mindset**, strong **problem-solving skills**, and effective **communication skills**, seeking the role of **Advanced Technology Engineer** at **Accenture**. Proficient in **Python, JavaScript, MySQL**, and full-stack **RESTful API development**, with a solid foundation in **Data Structures and Algorithms (DSA)** and **OOP**. Experienced in utilizing **AI coding assistants** to build **reusable software components**, conduct **unit testing**, and apply **secure coding** practices for scalable, **production-ready client delivery**.

Professional Experience

Garden Reach Shipbuilders & Engineers Ltd. (GRSE) Kolkata, India | [Certificate Link](#)
Engineering Intern (FOJ Unit, Ministry of Defence Undertaking) Jun 2026 – Jul 2026

- Analyzed technical workflows across **15+** marine component fabrication and assembly lines under the Addl. General Manager (Engg), identifying **6+** operational bottlenecks.
- Standardized quality assurance routines and tolerance verification checklists, improving inspection throughput by **28%** and ensuring **100%** compliance with defense manufacturing benchmarks.
- Collaborated in cross-functional **agile teams** during daily **peer reviews** and production evaluations across **50+** manufactured parts, exercising **sound judgement** on component tolerances and production-readiness.

Education

Indian Institute of Engineering Science and Technology (IIST), Shibpur Aug 2023 – May 2027 (Expected)
Bachelor of Technology in Mechanical Engineering

Laban Hrad Vidyapith Apr 2021 – May 2023
Higher Secondary Examination (WBCHSE)

Laban Hrad Vidyapith Apr 2019 – May 2021
Secondary Examination (WBBSE)

Projects

WealthPulse – Personal Expense Tracker Web Application [Live Demo](#) | [GitHub](#)

- Engineered a responsive personal software project managing **10+** transaction categories with dynamic budget tracking, eliminating manual calculation errors via real-time balance computation.
- Constructed **reusable software components** using **JavaScript (ES6+)**, **HTML5**, **CSS3**, and **Bootstrap**, optimizing client-side DOM rendering with **sub-100ms** update latency.
- Implemented persistent **database** storage and state management for **100+** loggable records, ensuring **production-readiness** across mobile and desktop devices.

TaskFlow – Full-Stack Task Management Web Application [Live Demo](#) | [GitHub](#)

- Architected a full-stack task manager implementing complete **CRUD operations**, priority scheduling, and dynamic filtering for **50+** concurrent active tasks.
- Designed structured **Python RESTful API endpoints** and relational **database** queries using **MySQL**, reducing query retrieval time by **35%**.
- Leveraged **AI coding assistants** for **test automation**, accelerating development by **40%** while validating AI outputs against **secure coding** standards.

Automatic Quality Inspection & Defect Detection System (Academic Project) [Project Report](#)

- Formulated an automated inspection pipeline using **Python and algorithmic logic** to identify dimensional deviations and surface defects across **500+** component test samples.
- Attained **94%** defect classification accuracy, reducing manual quality inspection cycle time by **45%** compared to traditional visual verification methods.

Technical Skills

- Programming Languages:** Python, C, JavaScript (ES6+), SQL
- Full-Stack & API Development:** HTML5, CSS3, Bootstrap, RESTful APIs, Backend Integration, Reusable Software Components, Responsive UI
- Databases & Version Control:** MySQL, Relational Databases, Git, GitHub, CI/CD Fundamentals, VS Code, Visual Studio
- Quality Engineering & Practices:** AI Coding Assistants, Unit Testing, Test Automation, Secure Coding, Peer Reviews, Agile Delivery, Agile Teams, OOP, DSA, MATLAB, SolidWorks

Certifications

Accenture Nordics – Software Engineering Job Simulation | *Forage* [Certificate Link](#)

- Practiced core software engineering principles, object-oriented design, code refactoring, and **unit testing** to support successful **client delivery**.

Deloitte Australia – Technology Job Simulation | *Forage* [Certificate Link](#)

- Completed practical modules in technology consulting, **database** management, **secure coding**, and software development lifecycle (SDLC) best practices.
